OUR COFFEE

Our passion for coffee is evident in every cup we serve, using only the best coffee beans sourced from the finest estate in Guatemala. Finca Casa Aurora is located in the hearth of Santa Cruz Alta Verapaz, Guatemala rainforest where our beans are cultivated at 4,921 ft above sea level.

Caturra is a natural hybrid of Bourbon, one of the world's most culturally and genetically important varieties of arabica coffee. It has gained a reputation for having high-quality cup potential and is recognized for being crisp, complex, and sweet with bright acidity.

Our coffee has a chocolate moderate aroma with an acidity of red apple resulting in a full consistent body with flavors of caramel, chocolate and sweet fruits. The coffee we have selected is also being roasted to our taste, which makes our coffee unique and one of a kind.

It brings out a rich, full-bodied flavor which you will taste in your cup.
